

ENJOY YOUR MEAL (CONCLUSIONS)

The project *Enjoy your meal* is very positive for different reasons.

We learnt things we didn't know: some doubts that we wrote and put in balloons. We explode them. To work in teams and that it is necessary to coordinate. We had some conflicts and our teacher helped to solve them. We didn't practice some of the ideas but we know how to do it better now. We feel very well.

We did our work: posters showing the solidary breakfast, informative flyers, surveys about food habits. You can watch some photos.

Last 10th June our school celebrated a solidary breakfast during the break. A lot of students, teachers and a few parents came. Thank you, Nacho and Inma for visiting the school. We think that we are kinder with ill people. We celebrated the breakfast with emotions, raising money for the investigation of a disease.

Finally, we want to thank all the people that helped and participated in the preparation and the information. We also want to thank our partners because they answered the surveys and they are solidary. Thanks to the teachers that helped with ideas and collaborated too. To the restaurants and *La Plazuela*, that let us inform of the event and to our teacher Mercedes; we started and finished this project with her. We had fun! You can see photographs .

We hope to collaborate in the future with similar projects!
